Modular Acoustic Enclosure

S450-1 – S550-1 Scania Range

Developed through continuing research and development by our specialist engineers, all FG Wilson enclosures are fully weatherproof and incorporate internally mounted exhaust silencers. Designed on modular principles, they have interchangeable components permitting on-site repair.

Durable and Robust Construction

- High grade steel protected by power coat paint
- Black finish stainless steel locks and hinges
- Zinc plated or stainless steel fasteners

Excellent Access for Maintenance

- Large side hinged doors on both sides of enclosure providing optimal access
- Radiator fill access plate
- Lube oil and cooling water drains piped to exterior of the enclosure

Extremely durable and robust, the enclosures are designed to resist corrosion and handling damage with the ability to withstand rough handling common on many construction sites.

Security and Safety

- Control panel viewing window in a lockable access door
- Emergency stop push button (red) mounted on enclosure exterior
- Cooling fan and battery charging alternator fully guarded
- Fuel fill and battery can only be reached via lockable access doors
- Exhaust silencing system totally enclosed for operator safety

Transportability

- Optional tested and certified lifting arch
- Lifting points on baseframe

Sound Pressure Levels (dBA) for 410 – 550 kVA CAE Enclosure

Generator Set Model		60 Hz
